Profile

Highly motivated Senior Full-Stack Developer with more than 9+ years of experience leading and mentoring teams. Skilled in building robust, user-centric applications using **React, Redux, Python, GraphQL, FastAPI Microservices**. Proven ability to deliver on projects of varying scope and complexity, fostering a collaborative environment that optimizes team performance.

Experience

T-Systems (Senior Consultant)

📅 Feb 2020 - Present

- Designed frontend architecture to host SAP systems in different public such as **Azure, AWS, GCP using React, Redux, TypeScript, Material UI**.
- Migrated legacy vmware based backend portal with modern web technologies such as **React, Redux, Material UI, GraphQL, FAST APIs and Docker**.
- Reviewed **10K plus lines of code**, with standards to make sure aligned with best practices on Gitlab.
- Implemented automated **E2E testing** for entire application using **Playwright, Gitlab**.
- Led weekly catch-up** call to ensure off-shore team worked effectively.
- Worked with project manager to keep on track with **project plan, timelines, and billings**.

Synechron (Senior Software Associate)

📅 Jul 2016 - Feb 2020

- Architected and developed frontend application for more than 1M e-learning users using **React, Redux** from scratch.
- Led development team of 6 members to provide features like **students dashboard, registration, sso sign in, score calculations** and many learning activities.
- Single handedly built a platform for students to opt-out for courses from their universities using **React, Redux and ExpressJS**.
- Worked with 2 designers, 2 product managers, and 6 developers to achieve design goals.
- Mentored 6 new junior front-end developers on team in expanding **JavaScript, ES6, React, and Redux** skillset.

Amdocs (Software Engineer)

📅 Jan 2015 - Jul 2016

- Interacted with international clients to understand their business requirements.
- Developed **registration membership, subscription event, feedback module and automated internal processes** using **Angularjs, Bootstrap, NodeJS**.
- Participated in the entire lifecycle of the project from drafting a technical document to releasing it in production.
- Received mentorship from 2 senior developers while consistently implementing their feedback.
- Worked with Quality Assurance team to get features/products tested, and addressed any P1, P2 issues within 48 hours

Highlights

- T-Performer Award winner** for best individual contribution in 2021.
- Attended special 2 days **Lead & Rise training program** in 2021 at T-Systems.
- Nominated for **SAFe Scaled Agile** training program in 2021 at T-Systems.
- Highly recognized **Surpass Award winner** at Synechron 2018.
- Thrice **Spot Award winner** at Synechron in the year 2017, 2018, 2019.
- Captained cricket team at college, university level.
